The first location filter is set to 'United States', while the other two are 'Select a location...'. The age filter is set to '25-34 years old', and the other two are 'Select an age...'. Below these are tabs for 'All', 'Male', and 'Female'. A 'Highlight' section shows 'Unique' and 'Common' options, both with a star icon and a '0' count. This is a easy guaranteed method to earn quick commissions from Amazon.

If you use this method correctly, you will have very little or no competition in terms of ranking on the first page of the Google search engine.

The key to the method is to go to the website below and review the new products that have been released by Amazon. It must be a product name that is new and it has not been indexed or listed by Google.

The method will still work, even if it is listed by Google, so long as it is not listed by a major website. YouTube videos will easily out rank most of the average websites.

Create a product review video with the new product name in the title, description and in the keyword tags.

You will need to join the Amazon's affiliate program and add your affiliate link on your website or blog.
