Facebook App ID

You must have a Facebook App ID and your site must be online to use the Facebook HCS plugin. Refer to the "How to Get a Facebook App ID" user guide for instructions. After you obtain your AppID, continue below:

1. Paste your Facebook AppID here.
2. Paste your Facebook Secret key here.
3. Enter the number of search results you would like to see here. The higher the number the slower the search may be.
4. Click Save Settings.

The screenshot shows a configuration form for Facebook. It is divided into two main sections: "Facebook" and "Options".

- Facebook Section:**
 - Header: "Facebook" (circled 1)
 - Text: "App Domains should be your sitedomain.com"
 - Label: "App Id:" (circled 1)
 - Input field: Empty text box (circled 1)
 - Text: "Enter your Facebook AppID" (circled 1)
 - Label: "App Secret:" (circled 2)
 - Input field: Empty text box (circled 2)
 - Text: "Enter your Facebook Secret Key" (circled 2)
- Options Section:**
 - Header: "Options" (circled 3)
 - Text: "Additional Options." (circled 3)
 - Label: "Search Limit:" (circled 3)
 - Input field: Contains "10" (circled 3)
 - Text: "Enter limit for number for results. Higher number may slow down the Search." (circled 3)
 - Button: "Save Settings" (circled 4)

Red arrows point from the numbered callouts to the corresponding input fields and the "Save Settings" button.

Login with Facebook

After saving your AppID/Secret Code:

Facebook Hot Content Seeker User Guide

Find Content on Facebook!

Now you will see the Find Content on Facebook! section on the settings page.

1. Enter the keywords you would like to search.
2. Select Page or Group to display results from Facebook Groups or Facebook Pages.
3. Click on Search to view your results.

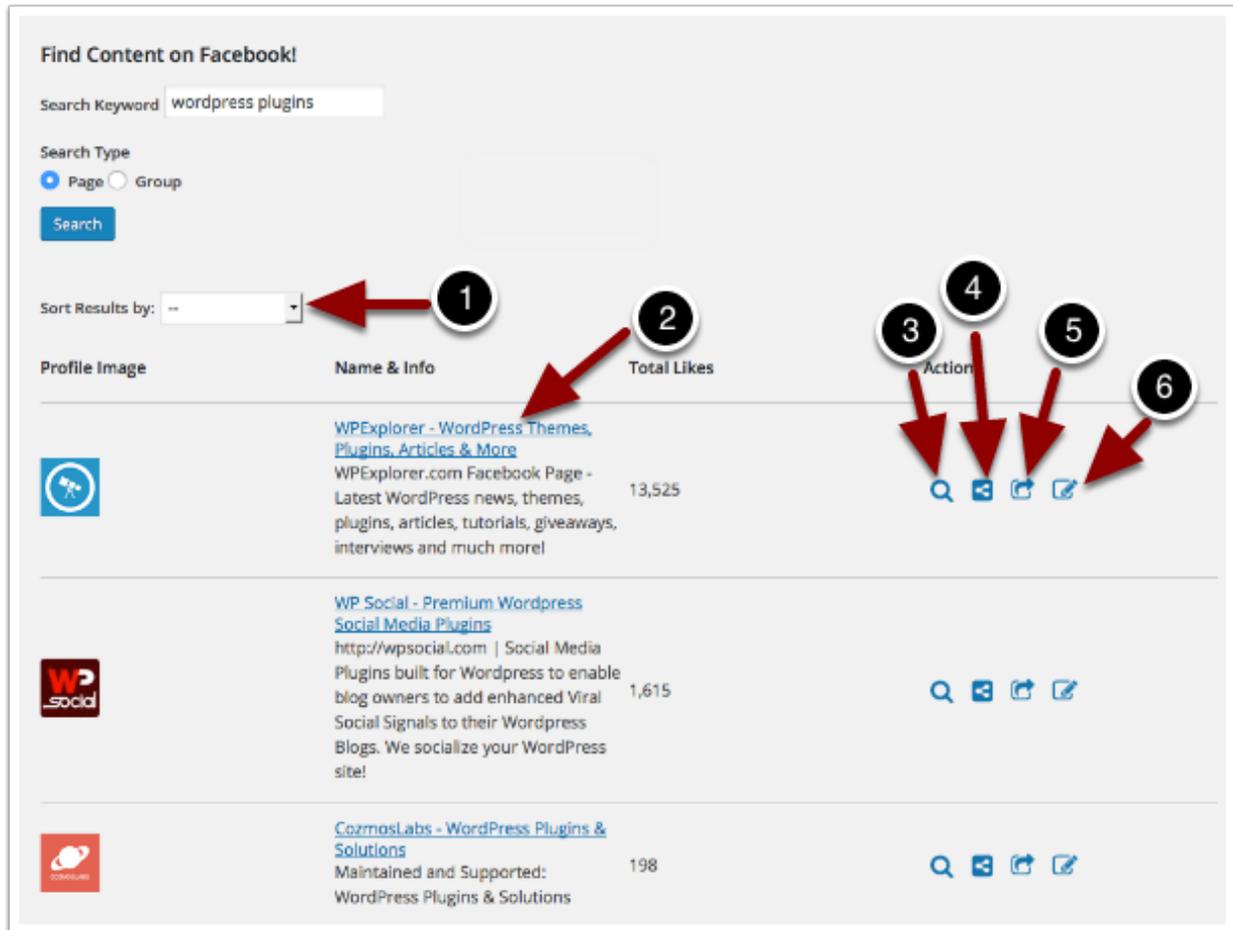

The screenshot shows a search interface titled "Find Content on Facebook!". It features a search bar with the text "wordpress, pluginmill". Below the search bar, there are two radio buttons for "Search Type": "Page" (which is selected) and "Group". At the bottom of the form is a blue "Search" button. Three red arrows with numbered circles (1, 2, 3) point to the search keyword, the search type selection, and the search button respectively.

Viewing Your Results

The results from your search will now display.

1. To sort your results, click on 'Sort Results by' to sort by Name or Total Number of Likes.
2. Click on the link under Name & Info to open and view the page/group in Facebook
3. Click on the View Content icon to view the page/group content information.
4. Click on the Share icon to share the page on your Facebook feed (not available for Groups).
5. Click on the View icon to view the page in Facebook in another browser (not available for Groups).
6. Click on the Publish icon to publish a link to the Facebook page on a blog post or page (not available for Groups).

Facebook Hot Content Seeker User Guide

Viewing Content for Page or Group

After clicking on the Search icon from above (#3) you will see the screen below.

1. You can choose to view the Feeds, Albums or Videos for the particular page or group.
2. Under Post, you will see the details of the post.
3. Under Likes you will see the total number Likes for that particular post.
4. Under Shares you will see the total number of Shares for that particular post.

Facebook Hot Content Seeker User Guide

5. Under Actions, you can choose to Share, View the Content on Facebook or Publish that content to a post or page.

The screenshot shows a Facebook search interface for the keyword "wordpress plugins". The search type is set to "Page". The results are displayed in a grid format with columns for "Post", "Likes", "Shares", and "Actions". Three red arrows point from callout 1 to the "FEEDS", "ALBUMS", and "VIDEOS" tabs. Callout 2 points to the "Post" column header, callout 3 to the "Likes" column header, callout 4 to the "Shares" column header, and callout 5 to the "Actions" column header. The results list three posts with their respective engagement metrics and action icons.
