

Marketing Strategies Email Template

Hi [first name],

My name is [...] and I create "Multi-Step Sales & Lead Funnels" for local clients. Unlike most consultants I never get paid until I deliver results & looking at your website I am 100% confident that I could drive results for you in 2 very powerful ways:

-Creating an Email/Phone Number "Lead Capture" Funnel to get you qualified leads (I know via Google you pay upwards of \$xxx per click to Google for these leads yet you then fail to capture any of their information effectively on your website)

-Creating a Sales/Consultation Funnel to drive targeted website leads directly to your business or to a product you may want to sell them

Once again I never get paid or take any money until I show you results & I create custom tailored solutions to optimize results getting you a slew of new leads and clients. You can call me at xxx-xxx xxxx. If I don't pick up I might be with another client.

Look forward to working together. Worst case we can catch up via a quick 15 minute call and I'll give you advice on how to improve your marketing strategies for free.

Cheers,

Name
